**My Personal Interpretation of Impressionism**

"Please join me for a painting demonstration. I will share with you my techniques in achieving a mystical, and calming approach to landscapes and water views.

You will learn how I create my own vision while sharing my impressionistic approach to painting scenic "views". I will share under painting and priming plus blocking in landforms/ water. I bring along inspiration, and a valuable critique if I do say so myself! Be ready to have some fun!"
